Housekeeping

You are all muted.

Use the panel to make us aware of questions and problems.

You can ask questions.

Please use that chat window.

You don‘t have to wait for the QA session.

You can also ask during the webinar. If we can‘t answer directly we will follow up.

Creating a structured business architecture with Qualiware

Joint Webinar January 25, 2018

Simon Montague, Qualiware Dr. Juergen Pitschke, BCS

Business Architecture

Business Architecture

or

Enterprise Architecture

- We talk about digitization of Business Processes?
- If you have a fight between Business and IT you have other problems.

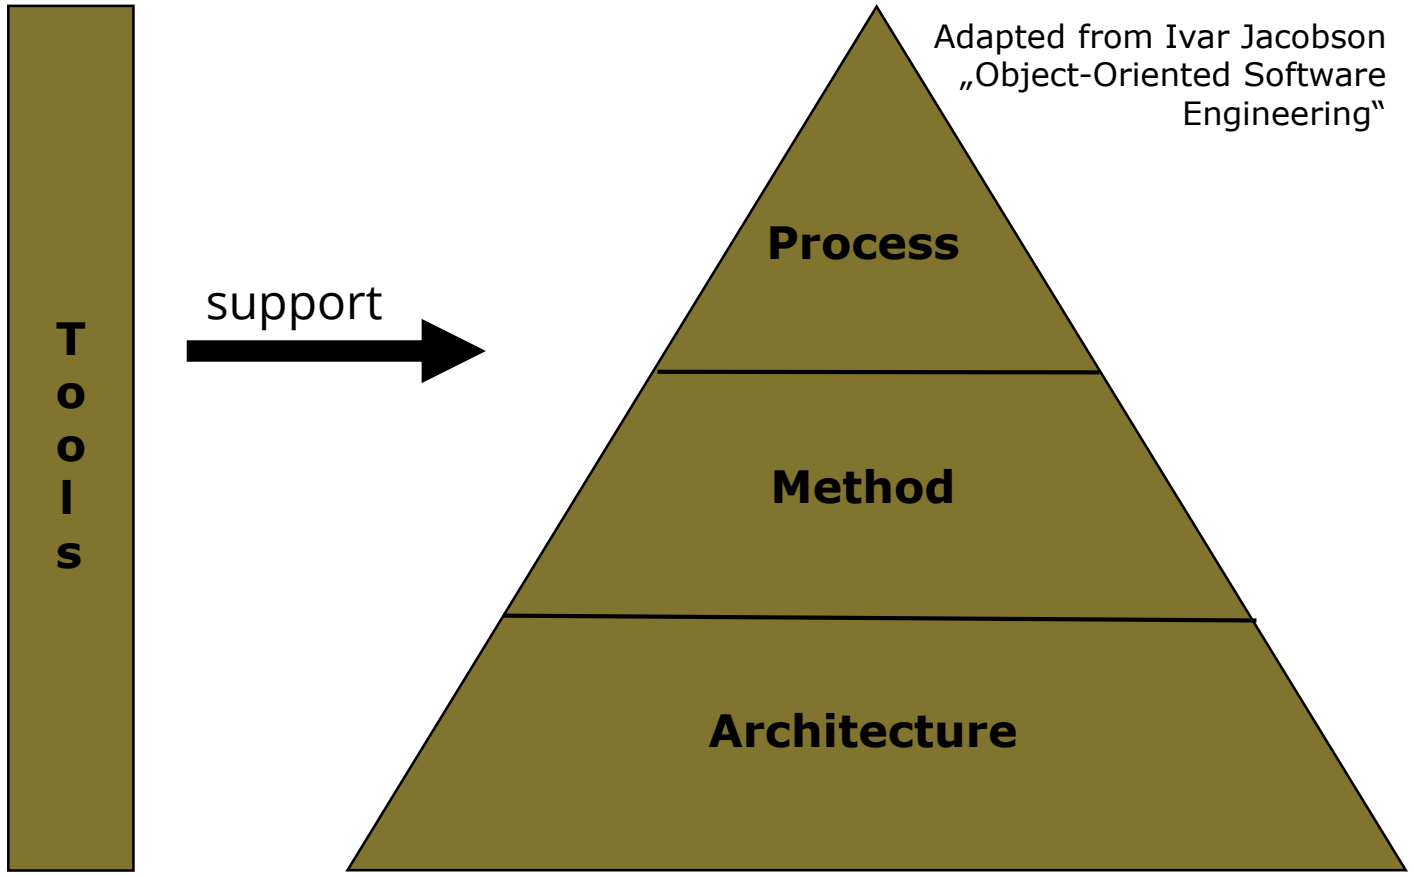
Architecture, Method, Process



Architecture:

All forms of descriptions.

All connections between elements and models

An architecture needs multiple view and abstraction levels.

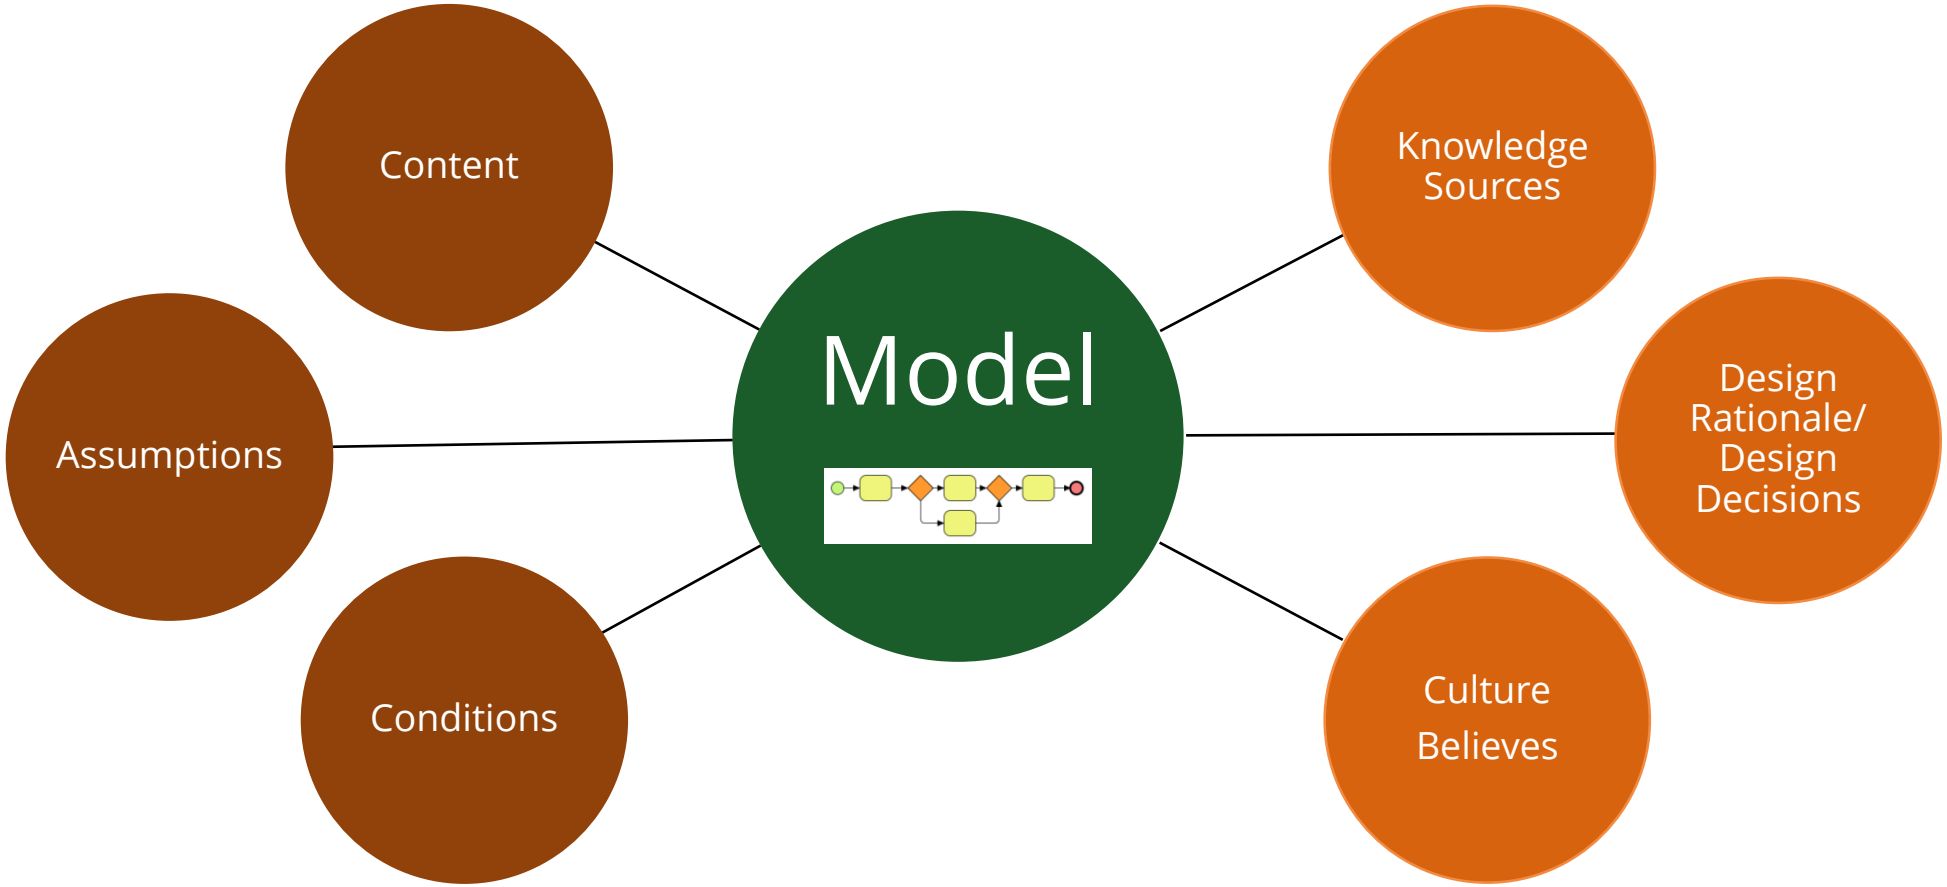
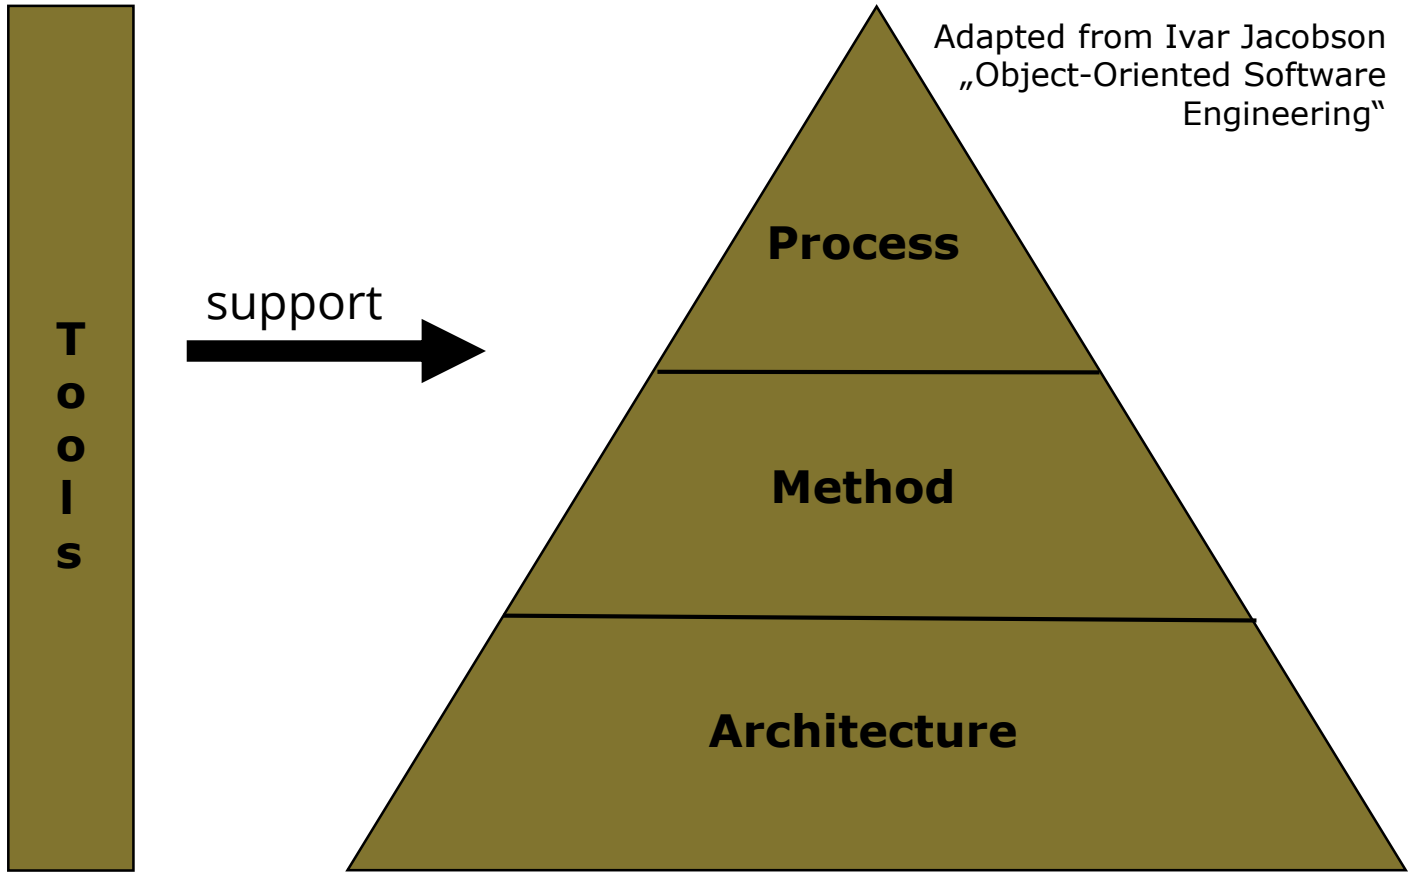
Good Models



© BCS – Dr. Juergen Pitschke 2003-2017

Architecture, Method, Process



Method: You need different working techniques to create the elements of your architecture.

Process: You need collaboration in the team and with your stakeholders.
